10/07/2015	03:57:36 AM	1001	Closed	Badges	JAMTB Corp

This is not really what we had in mind for this. The pop should display 1 minute before logout stating "Your login will expire in 1 minute, click OK if you want remain logged in." If the user clicks OK the login clock gets reset to the Logout Time set in the System Edit User screen. If the user does not click OK with in a minute the pop up should disappear and the user in just logged out.
